

Hello friend! Thank you for supporting testa bags and making my 2001 debut a great success! For those of you new to my bags...welcome!

My obsession with anything vintage is revealed this season! I purchased something in each and every vintage shop I visited! Tablecloths, dishtowels, needlepoint, and men's neckties all contribute to the four "collections" presented this season. In addition to these collections, I always have lots of bags made from fresh looking fabrics and without a doubt, vintage clothing!

testa bags are one of a kind!
I individually and personally design and make each bag. Although testa bags are recognizable, you won't see anyone with *your* bag.
If you're interested in a bag you see here, please call or email me! If it is already sold, I will work with you to create a similar look. Or we will discuss your style and I will design one especially for you!

Hope you enjoy the testa look for summer 2002.

Take care,
Nicole

Línens Collection

Vintage house linens, like tablecloths, napkins, dishtowels, and pillowcases bring fond memories of your grandmother and can give you that warm yet, cool look today!

Yíng Yang Collection

Ribbon Collection

Streaming with unique color combinations, these bags remain very popular! This time, the strips of ribbon are sewn vertically or horizontally.

This season's Funky Finds

I found an amazing collection of needlepoint pieces on their canvases. Although originally intended for pillows and seatcovers, their ultimate fate was to become testa bags!
